

FSA208S11

FSA Industrial Survivor Sewage Pump

The Munro Industrial Survivor pumps provide superior sustainability and performance, even in the most difficult environments and demanding requirements. While no pump is ever “fit and forget”, these extra heavy duty pumps have proven their durability year-after-year and have earned customer accolades for long-term intermittent use.

- **All Stainless Steel** – to stand up to the worst conditions
- **Double Mechanical Seal** – allows for extended-duty operation
- **Oil-Free Motor** – thermal and overcurrent protection

COMMON APPLICATIONS

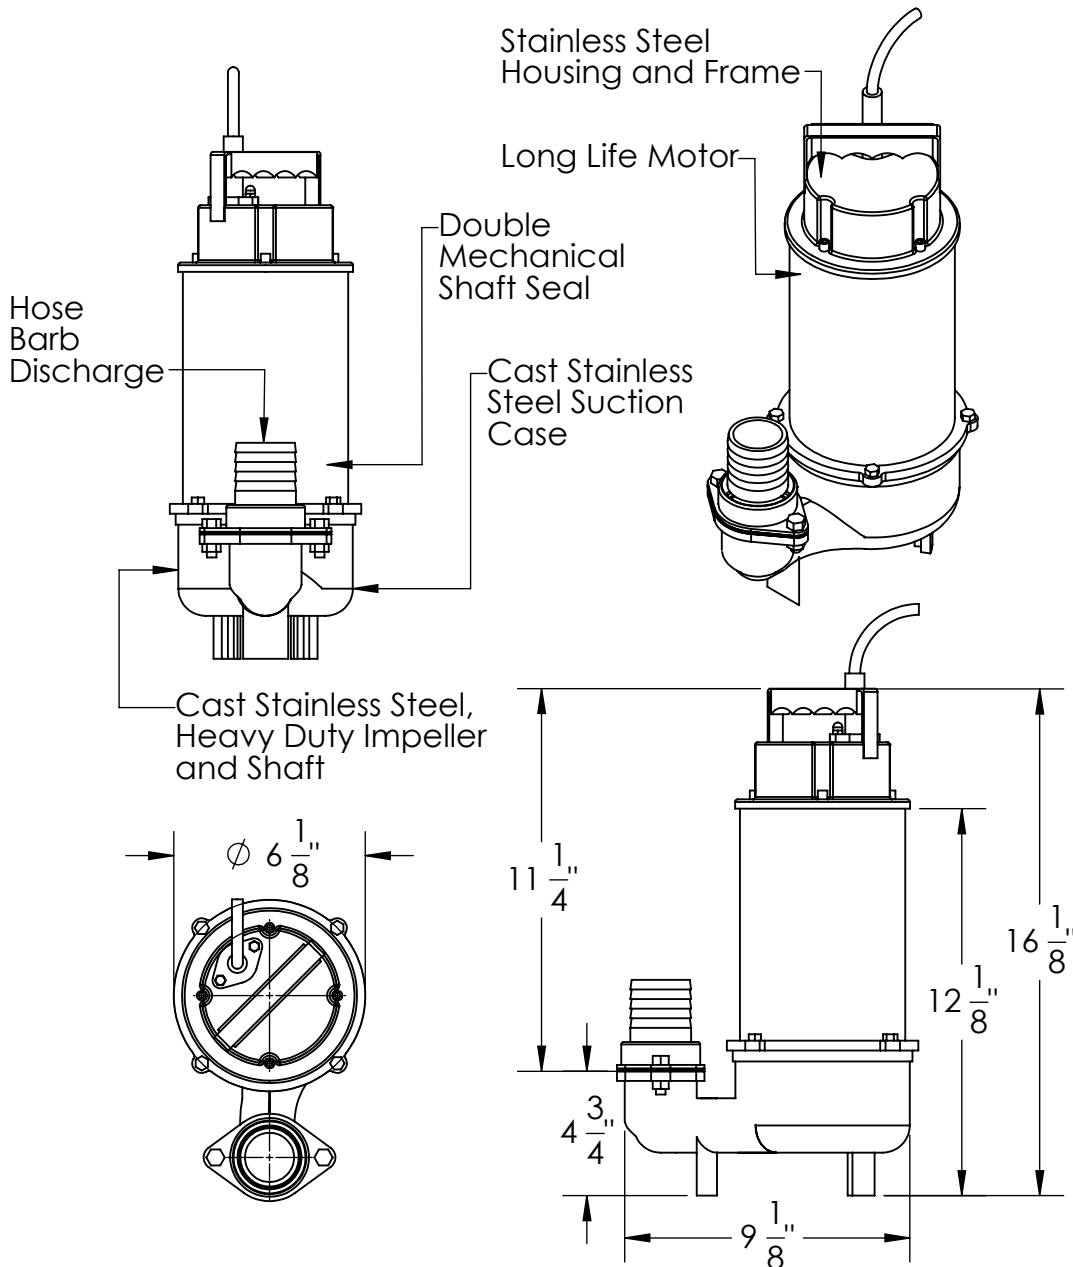

- **Recommended for:** commercial
- **Other Uses:** residential sewage

ADVANTAGES

- **All Stainless Steel** – This hearty pump boasts a stainless steel cover and frame as well as cast stainless steel impeller, suction case and shaft to stand up to high temperatures and harsh external conditions. This pump just screams quality.
- **Premium Performance** – Heavy-duty construction provides trouble-free performance, even in the most demanding situations.
