

PUMP CURVE

SIMPLICITY 70VFD

BY MUNRO SYSTEMS

The Smart Drive Package At Fixed Speed Prices

THE SIMPLEST PACKAGE ON EARTH

One Self-Contained Unit...Water and electrical power are the only requirements for a smooth operating system.

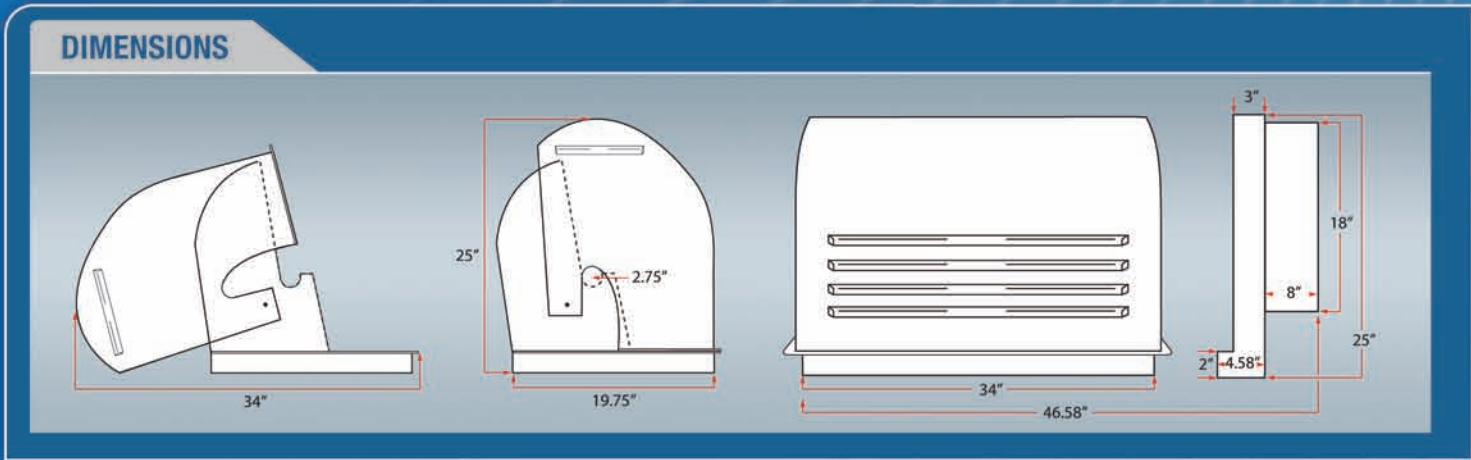

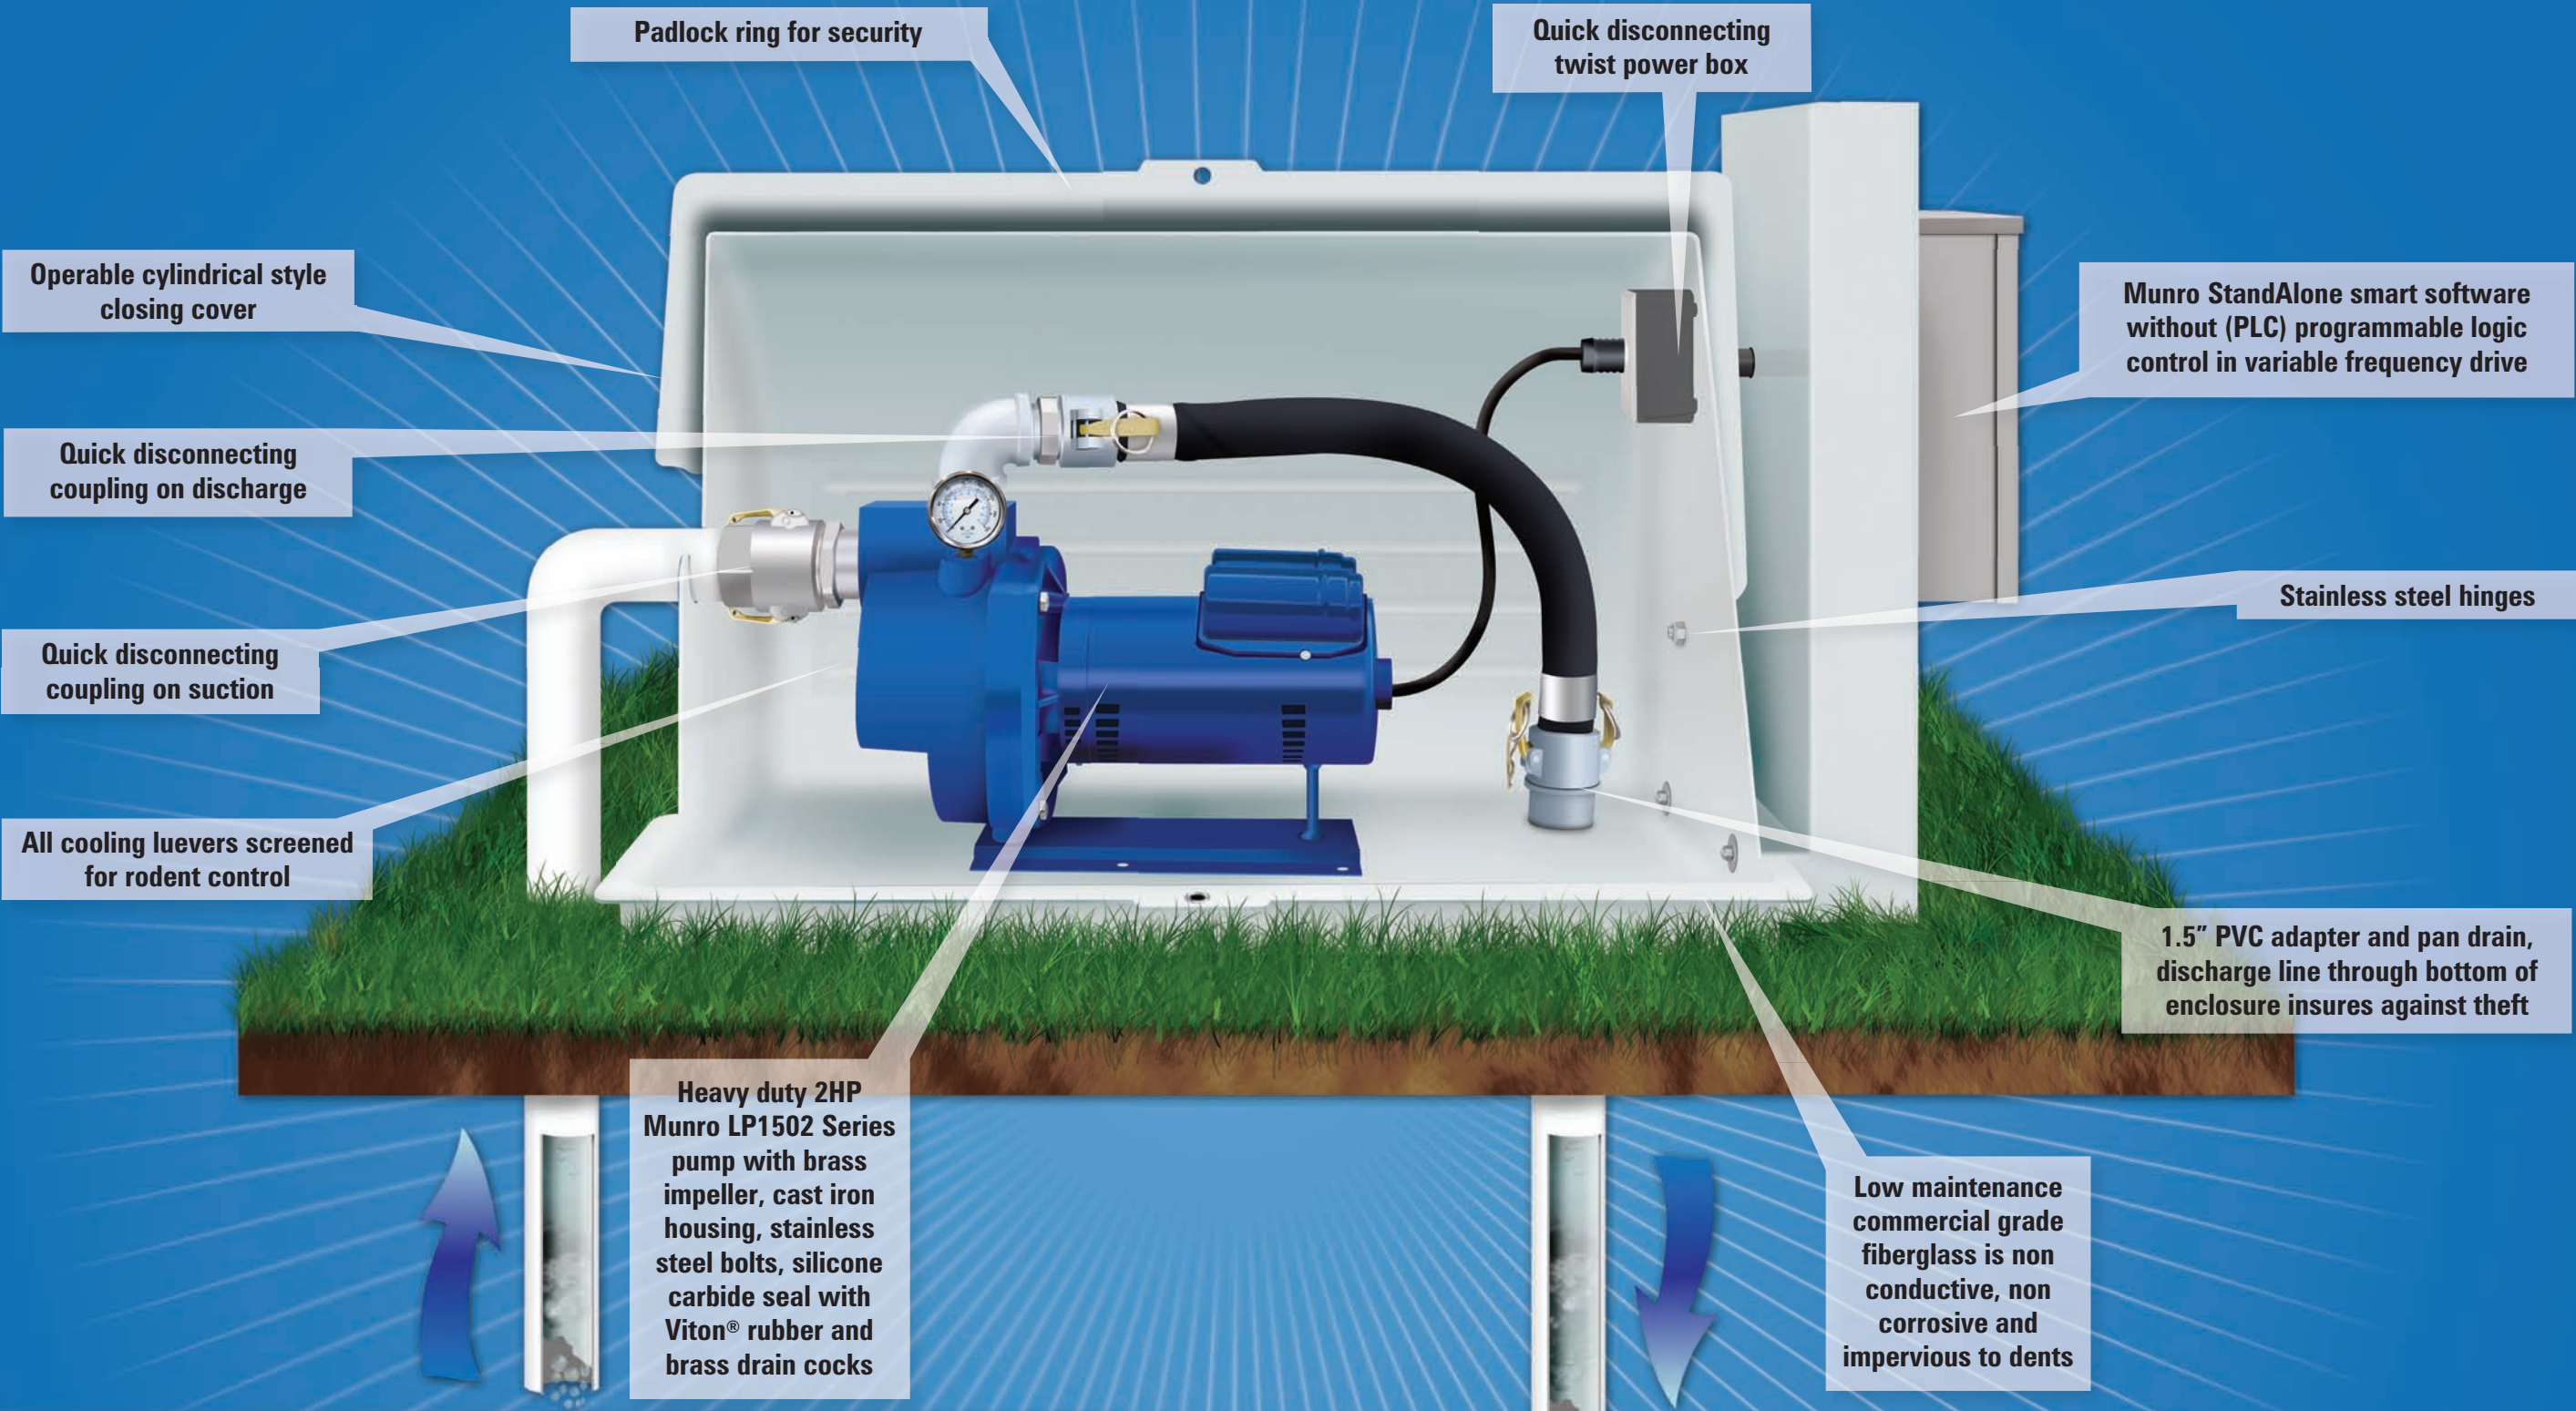

Simpler Maintenance
Lower operating speeds result in longer life for bearings and motors

Simpler For Your System
A soft start and controlled ramp-up speed eliminates water hammering and reduces maintenance

Simpler Controls
No throttling valves or dampers means fewer controls for simpler operation
